

Hispanics being targeted in the DUI sweeps conducted by the local police and I have made my support for their concern known to them, the police department and the city manager.

4. What areas do you plan to focus on if you are elected?

Budget will be critical. We need to continue providing public services in these economically constrained times. We need to increase jobs, adding revenue to our city and keep our city the safe, great and affordable city we all love.

5. What is your position about the role of Sonoma County law enforcement in Immigration and Homeland Security?

I believe immigration sweeps should be targeted at employers, not employees.

6. What is your position on drivers license checkpoints and vehicle impounding?

I think impounding should be limited to DUIs or cases where warrants are involved.

7. What is your position on the DREAM Act?

I know service in the military has long been a path to citizenship, but I also know that was during a time when our country had a draft that made all 18 year olds eligible to do so as well. Without the draft, we are looking at a very different military and I have uneasiness about the privileged being protected by those who have no alternatives.

8. What is your position on independent review boards for law enforcement?

I support them.

9. Please share your knowledge of the budget process and how you intend to address budget issues once elected.

I have had four years of experience balancing the city's budgets, through good times and lean, so I think I am able to bring a practiced eye to the process, one that needs understanding, compassion, and a long term vision.

10. How do you intend to win your race? Do you have a campaign plan?

I intend to win on my record and by walking precincts, reaching out to committed voters. It was a successful strategy and I believe it will serve me well again this year.

11. What other groups have endorsed you?

Coalition for a Better Sonoma County, Democratic Central Committee, Moms for Clean Air

12. Why are you seeking the endorsement of the Sonoma County Latino PAC?

Because I am aware that Latinos are over 30 percent of Petaluma's population and I do not believe enough has been done to involve our latino residents in our city's government. I have reached out successfully by seeking latinos to serve on committees and commissions, and I want to do more.
